Professional

Clear communication
Problem solving
Team collaboration
Time management
Adaptability

PROFILE

Web developer currently completing the final credits of a Bachelor of Information Technology degree. I have hands-on experience building web applications and internal systems, with a focus on clean code and practical solutions. I enjoy turning ideas into working products and improving them through iteration. I'm available full-time and keen to grow as part of a professional development team.

WORK EXPERIENCE

PROJECT-BASED DEVELOPMENT

2025 - Present

- Designed and developed responsive websites and web applications for small businesses and clients
- Built internal systems for invoicing, expense tracking, and job management
- Developed REST APIs and integrated front-end interfaces with back-end services
- Worked closely with clients to gather requirements and translate them into functional solutions
- Focused on clean UI, intuitive UX, and scalable application structure

SOFTWARE DEV INTERN

Cyber1Solutions | 2024

- Assisted with internal support systems and tooling
- Gained exposure to real-world development workflows and problem-solving
- Worked alongside experienced developers to understand system architecture and best practices
